Interstate Animal Movement Requirements Made Easy!

If you are involved with transport and movement of livestock, this resource is for you! NIAA and USAHA collaborated to create this user-friendly website offering state-by-state requirements for livestock transport. Site users are saying, "so easy to use!", "the menu-driven format is much appreciated," and "this site takes a topic that is hard to understand and makes answers easy to find."

Special thanks to Equity Cooperative Livestock and the Livestock Marketing Association as our foundation partners, state animal health officials, and industry supporters across the country for making this great resource available.

Check out InterstateLivestock.com today and share this great resource with other industry professionals!

The screenshot shows a web browser window with the URL InterstateLivestock.com. The page features the site's logo and navigation links for USAHA and NIAA. The main heading is "Interstate Animal Movement Requirements" with the subtext "Quick, accurate access to state import requirements for livestock." Below this is a search form with an "ADDRESS:" input field and a "FIND TAGGING SITE" button. To the right is a "FIND REQUIREMENTS..." section with instructions and three dropdown menus for "FROM" (Select Origin), "TO" (Select Destination), and "SPECIES" (Select Species), followed by a "FIND" button. A "Sponsors" section at the bottom includes logos for EQUITY Cooperative Livestock Sales, LMA (Livestock Marketing Association) with the website LMAweb.com, and a "Joint Forum on Livestock Traceability" event on September 26 & 27 at the Double Tree by Hilton Hotel in Denver, CO. The page is powered by Tracefirst.
