**E.g (1): Conduct Workshops**

- For each project activity, identify what service delivery or implementation targets you aim to produce.
- Your Planned Work:
  - # of workshops held
  - # of participants attending the workshops
  - % increase from pre- to post-survey scores or test scores
- Your Intended Results:
  - # of participants attending the workshops
  - (Participants’) better understanding of a topic
  - More informed decision making

**E.g. (2): Predictive Model for Specialty Crop Disease**

- Develop a predictive model for the spread of the specialty crop disease
- Your Planned Work:
  - # and type of materials produced and distributed
  - Types of participants attending course (demographic breakdown)
  - Development of benchmark data
- Your Intended Results:
  - Information shared with more than 700 specialty crop growers at conference
  - Increased awareness of the specialty crop disease model
  - A foundation for an integrated pest management strategy to combat the disease
  - Specialty crop conference break-out session measured by attendance at the session
  - Increased interest in research activities concerning the diseases associated with this specialty crop
