

Specialty Crop Block Grant Program Outcome Measures

The U.S. Department of Agriculture, Agricultural Marketing Services and the Office of Management and Budget developed standardized outcome measures and performance indicators that apply to the Specialty Crop Block Grant Program (SCBGP). The reason for this is to compile data across all states making it easier to see the effect the program has on the specialty crop industry, which in turn strengthens the need for continued funding. Applicants submitting proposals to the SCBGP must select at least one of the seven outcomes listed below and at least one of the indicators listed underneath the selected outcome(s). If there are multiple sub-indicators under the selected indicator, applicants must select at least one. All selected outcome measures and related indicators/sub-indicators must be achievable during the grant duration.
