

PRODUCE SAFETY

Training for Farmers and Growers on Produce Safety Rule

October 8, 2024

WHAT: This one-day workshop is being offered to produce growers. The training will cover the standardized curriculum designed by the Produce Safety Alliance, which meets the regulatory requirements of the Produce Safety Rule under FSMA (Food Safety Modernization Act). The course will provide a foundation of Good Agricultural Practices (GAPs) and co-management information, FSMA Produce Safety Rule requirements, and details on how to develop a farm food safety plan. Individuals who participate in this course are expected to gain a basic understanding of:

- Requirements in the FSMA Produce Safety Rule and how to meet them successfully;
- Microorganisms relevant to produce safety and where they may be found on the farm;
- How to identify microbial risks, practices that reduce risks, and how to begin implementing produce safety practices on the farm; and
- Parts of a farm food safety plan and how to begin writing one.
