### Acknowledgement

**Legal Requirements**

I acknowledge that assistance provided through the Georgia Hurricane Helene Block Grant is only made available to producers in designated counties within the State of Georgia, and I certify that I am an eligible producer with eligible losses in an eligible county as required by this grant., I authorize the Georgia Department of Agriculture and its agents to share my application, documents associated with the application and subsequent information provided as part

of an audit inquiry or compliance investigation with the Farm Service Agency and Risk Management Agency of the United States Department of Agriculture for the purpose of ensuring producer compliance with all crop insurance linkage, legal, and recordkeeping requirements of this grant., I authorize the Georgia Department of Agriculture and its agents unrestricted physical access to the locations claimed on this application for the purpose of ensuring compliance with all terms of this grant., I agree to provide additional information and documentation upon the request of Georgia Department of Agriculture to prove all loss claims and information made on this application.

Crop Insurance Requirements

I agree to purchase Federal Crop Insurance or Noninsured Crop Disaster Assistance Program (NAP) coverage for all insurable crops, trees, bushes, or vines claimed on this application in the counties where those losses occurred equal to or greater than the 60/100 level of coverage (or equivalent) where such insurance or NAP coverage is available for the first two consecutive crop years when coverage is available after receiving payment., I acknowledge that I can also satisfy the crop insurance linkage requirement of this grant by purchasing a Whole Farm Revenue Protection plan (WFRP) at least the 60/100 level or equivalent if I am eligible for a WFRP policy and am ineligible for NAP coverage for the first two consecutive crop years when coverage is available after receiving payment., I acknowledge that failure to obtain required Federal Crop Insurance or Noninsured Crop Disaster Assistance Program coverage at the required coverage level will require me, the producer, to refund to the Georgia Department of Agriculture or United Sates Department of Agriculture in full all funds received through this grant., I acknowledge that if my legal entity dissolves or a member, stockholder, or partner leaves the entity and farms under a different Tax Identification Number, linkage requirements must still be met if the majority share of persons receiving payments under this grant still continue farming crops that received assistance., I acknowledge that outstanding debt obligations to FCIC result in my inability to obtain Federal Crop Insurance until such obligations are met. I further acknowledge that I am still eligible for assistance under this grant provided that linkage requirements are met and I understand that it is my, the producer's, responsibility to satisfy all debt obligation to FCIC so that I can satisfy the requirements of this grant.

Recordkeeping Requirements

I agree to retain financial and other records relating to any funds awarded for a period of 3 years after receiving funds through this grant or until final resolution of any audit findings or litigation claims relating to the distribution of such funds, whichever is later., I acknowledge that failure to provide access to required documentation as part of this application or requested documentation in a subsequent compliance investigation or audit inquiry will require me, the producer, to refund the Georgia Department of Agriculture in full all funds received through this grant.

I certify the statement above is correct

Yes

## Timber Losses

<b>Did you suffer a minimum 15-percent timber loss on at least 10 contiguous forested acres?:</b>	<input checked="" type="radio"/> Yes <input type="radio"/> No			
<b>Note on Timber:</b>	Stands vary throughout the state based on site, soil type, etc. The forest type and ranges are estimates typical for these types of stands and selection should be based on what is being seen throughout the overall stand. For example, the age is 15 years old, but the product class is less than 5" due to poor site conditions and genetics. So the correct choice would be Pine: 0.5 years – 12 years. Average DBH <5".			
<b>Funding Request Type</b>				
Comprehensive
